Customizable for your organization and your needs

CUSTOMER SPOTLIGHT

AI GOVERNANCE COUNCIL SUCCESSFULLY IMPLEMENTS AI INTAKE, APPROVAL, AND PILOT PROCESS

A global energy company faced increasing complexity and risk in their AI projects, necessitating a structured framework to manage these initiatives effectively. Issues included safeguarding sensitive data, ensuring regulatory compliance, and aligning AI projects with strategic goals.

Pariveda helped establish an AI Governance Council (AIGC), and a comprehensive AI governance framework which included a robust review and approval process, leveraging third-party tools and custom models, to ensure AI solutions meet predefined risk and value criteria.

The team successfully piloted multiple AI solutions for HR and supply chain. These projects have streamlined operations, reduced manual tasks, improved decision-making efficiency, and maintained compliance with international laws, showcasing their commitment to responsible and strategic AI use.
